# Agile Flavoured Collaboration Hacks for Distributed Teams

Christoph Schmiedinger

10. PM Symposium der FH des BFI Wien

05.06.2019

@cschmiedinger

# Objective of the session

---

- What are the key drivers that allow distributed teams to thrive?
- What are common good practices that make collaboration within such teams smoother?
- Which tools can be used to reduce the barrier of distance?

# Agile is about working together!

- Task-Force“-mode
  - Strong focus
  - Close interaction & collaboration
  - Intensive synchronization
  - Haptic artefacts & visualization
  - Fast delivery of results

@luckybusiness @123rf.com

# But what if the team is distributed?

@decorwithme @123rf.com

# What is distributed?

---

What about a team that is spread over whole Europe?

What about a team that is spread over two buildings in the same city?

What about a team that is spread over two floors in the same building?

## 2 major enablers

---

**People &  
Processes**

**Tools &  
Infrastructure**

# PEOPLE & PROCESSES

# Self-confidence of project managers

- Claim autonomy for decisions
  - ... it is necessary to be successful anyway
- Define constraints with sponsors that have to be met/considered
  - ... which doesn't mean never challenging them again

@porteador @123rf.com

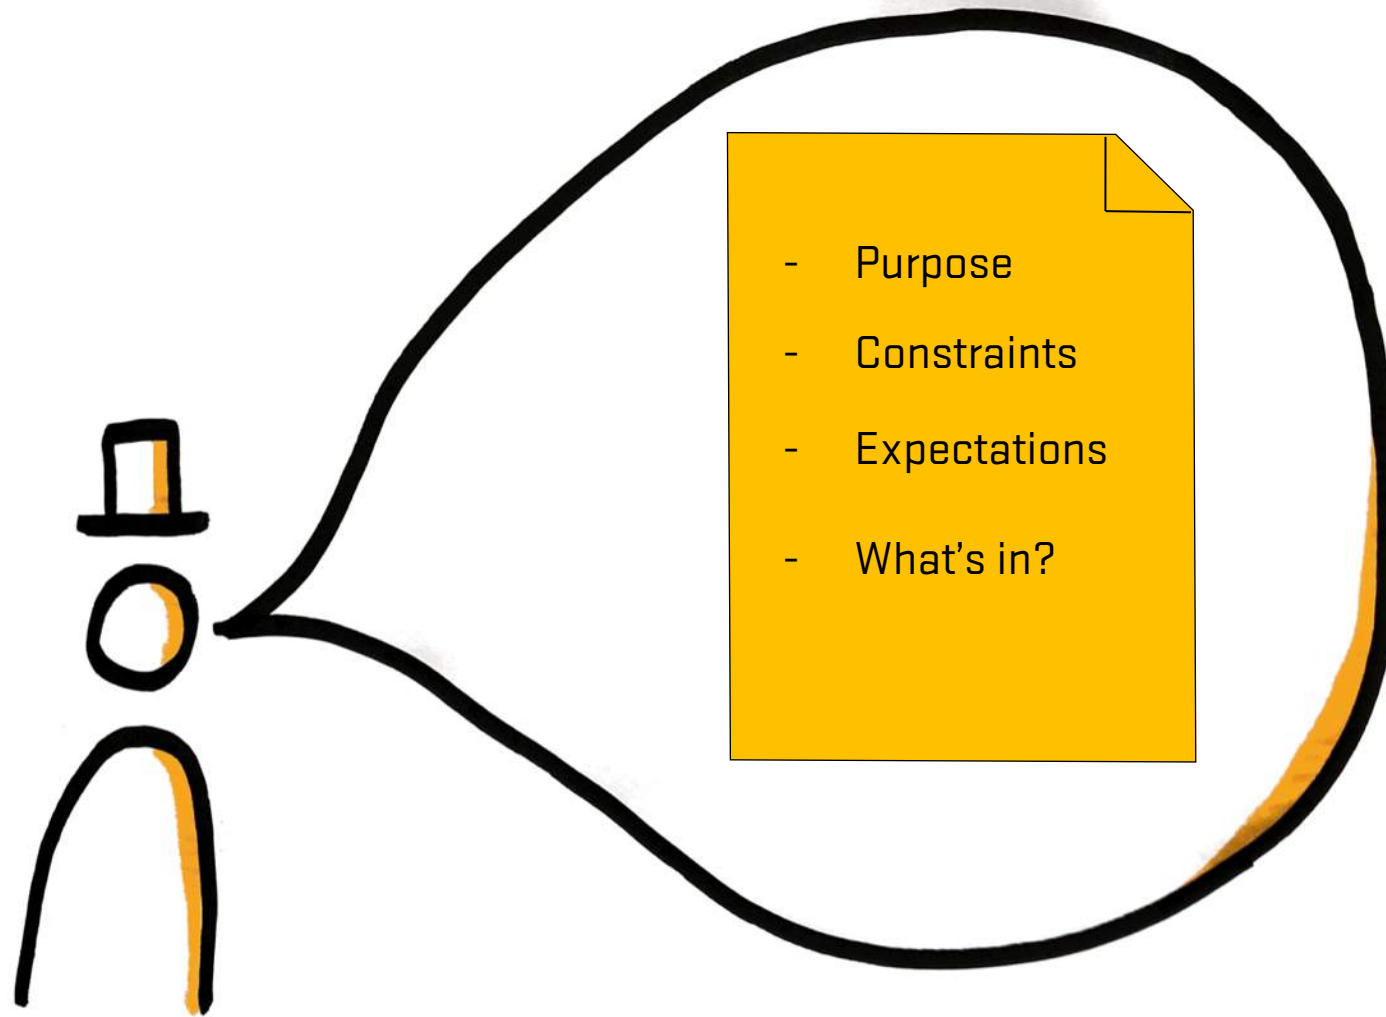

# Strong and ambitious visions

Quelle: Space X (<https://youtu.be/GhaD8XLoO14>)

**travel costs << costs for ineffective team work**

... but the fewest acknowledge that

# Personnel costs are extremely high

Half of a 10-person team is travelling between two European cities including one overnight stay

Flights	5x400€	2000€
Hotel	5x150€	750€
		<hr/>
		<b>2750€</b>

Team costs per amount of time

Costs 10x 90€/h **900€/h**

If the team is at least **3h\*** more effective in meeting face-to-face, the costs of travelling are amortized. Irrespective of other positive side effects of increased personal bonding that pays off in future collaboration.

\* If travel time is salaried, then the amortization time goes of course up.

# Collective kick-off phase

- “Bootcamp“-mode
  - Intensive examination of the project/initiative
  - Ideally off-site with no major interruptions
  - Good balance between work and socializing

**Example:** specification phase for client

@foottoo & mikolaj64 @123rf.com

# Clear Roles & Responsibilities

- Clear definition up-front
- Common understanding
- Role and expectation workshops
- Create a team charter
  - Values, procedures and working model

# Trust is Key!

# Communication is essential

- Open questions (try to avoid yes/no questions)
- Include quiet people (that don't talk if not asked)
- Overlapping working hours (to sync with each other, e.g. with a daily)

© rawpixel @123rf.com

# Heartbeat

Videoconferences (Weekly)  
Face to face Meeting (Monthly)

  
Discussion

Working session  
of 

Credits for this idea to Tobias Leisgang (companypirate.de)

# Regular phases of get together

- Once per agile iteration (typically two weeks)
  - In case of two locations: colleagues travel once every four weeks
- Plan one overnight stay to allow regular socializing

@aquir & gpointstudio @123rf.com

# Co-located work in critical phases

Private flight for more than 30 employees every week between Germany and Spain

@aquir & bluefox @123rf.com

# Iterative processes can help

- Regular review & planning session help synchronizing within the team
- Definition of iteration goals help to unify the team

... no matter if you do Scrum or not

# Remote-”Pairing”

---

- Common achievement of a task
  - Intensive collaboration
  - Knowledge transfer
- Regular rotation
  - Spread knowledge
  - Bond with each other

@gstockstudio @123rf.com

# Ambassadors

---

- Ambassadors as first contact person at the other location
  - Rotation principle

©kagenmi @123rf.com

# Team mood

## Daily Happiness Metric

Happiness Metric

@greyjj @123rf.com

>> Do you have other good practices in mind that deal with people and processes used for distributed and remote teams?

# TOOLS & INFRASTRUCTURE

# Infrastructure is key!

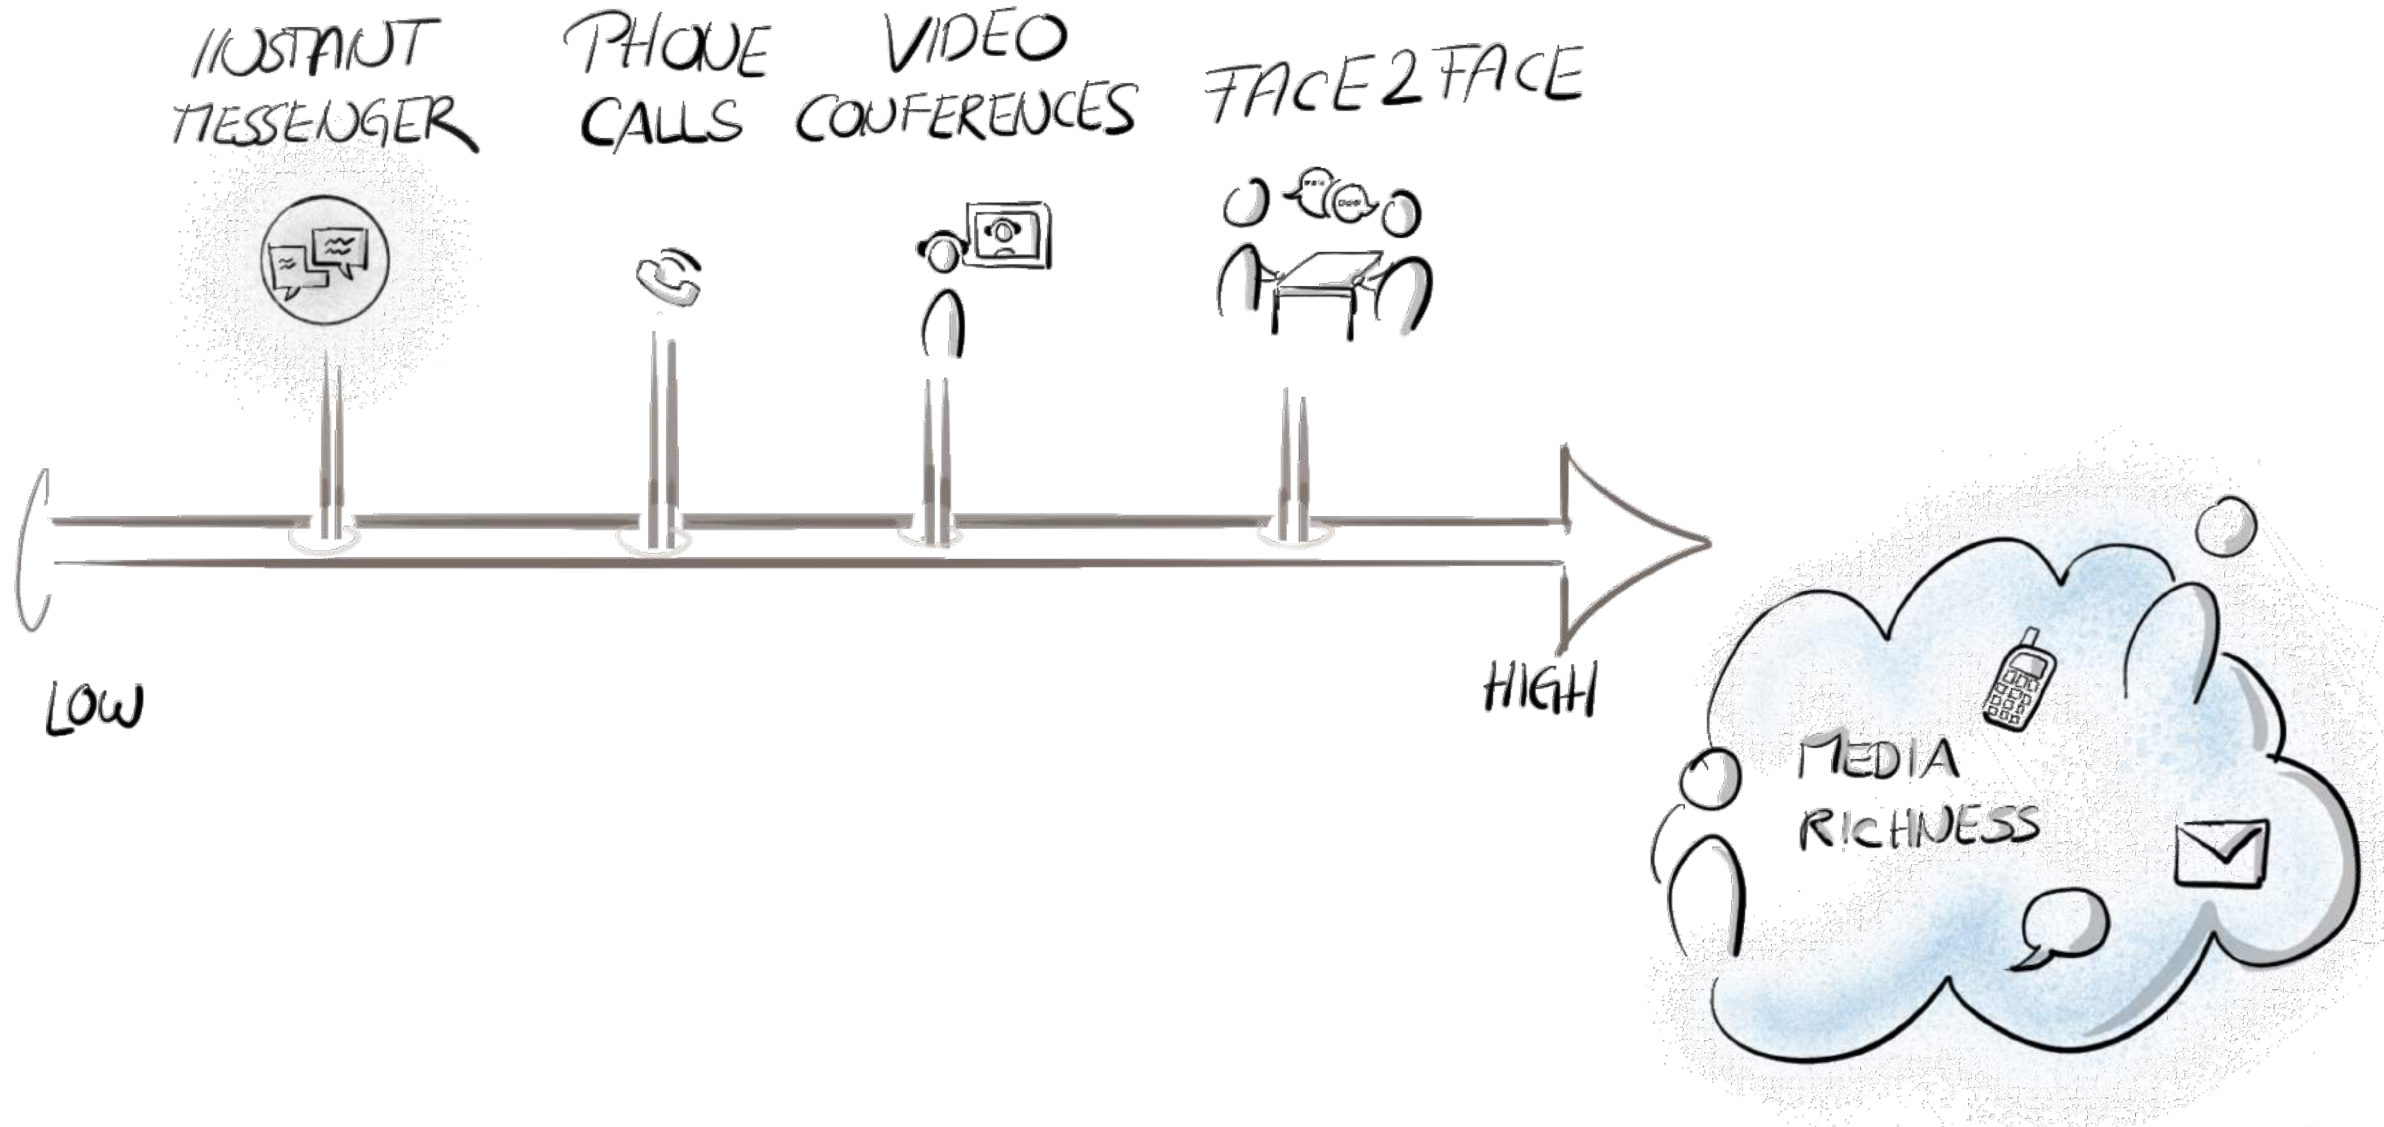

---

- Professional videoconferencing & screen sharing
- Lightweight chat tools
- Tools for visualization of the progress
- Possibility to work from everywhere with internet access

@dotshock @123rf.com

# Media richness

- *Slack, Atlassian Hipchat, Microsoft Teams, Mattermost, ...*
  - Organization in channels (principle of voluntariness)
  - Elimination of “internal only“-mails
  - Open APIs for further integration possibilities

**Example:** borisgloger consulting's use of Microsoft Teams

# Electronic TaskBoards

The screenshot shows a Trello board for 'Umgestaltung der Küche' (Kitchen Renovation) with the following columns and cards:

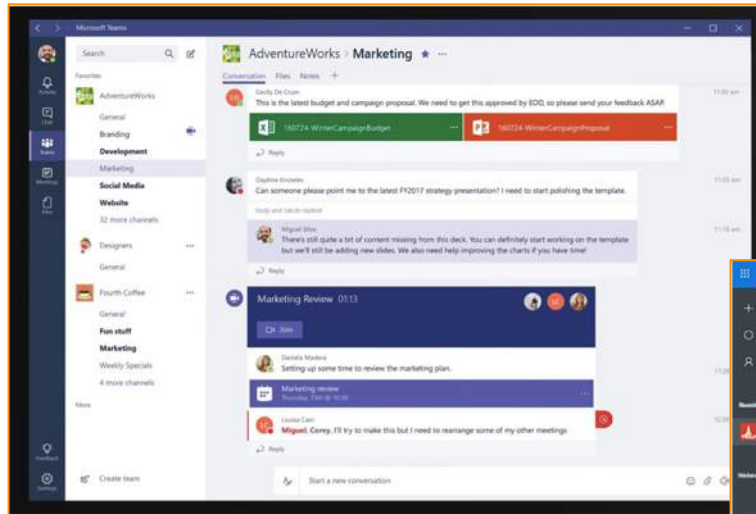

- Ideen**
  - Einen neuen Querbehang kaufen, der zu den Schrankfarben passt (with image of hanging pots)
  - Topfaufhängung über der Kücheninsel anbringen
  - Schubladenkäufe durch antike Knäufe ersetzen
- To Do**
  - Wasserdruck des Spülbeckens einstellen (due Nov 10, 2013)
  - Alten Kühlschrank und Herd entfernen
  - Neues Spülbecken einbauen (due Nov 4, 2013)
  - Neuen Fußboden verlegen
  - Kaufe Sie Farbe für Schränke
- Im Gange**
  - Farben der Arbeitsplatte auswählen (due Nov 27, 2013)
  - Neuen Servierwagen kaufen
  - Neue Küchenzeile entwerfen
- Fertig!**
  - Beauftragte Firma anrufen
  - Wasserhahn aussuchen, der zum neuen Spülbecken passt

The right sidebar shows the board's menu, members, and activity log.

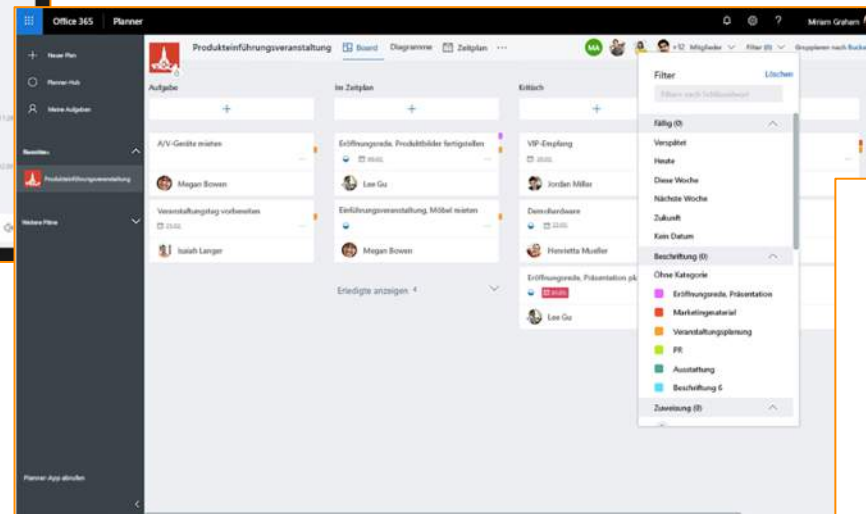

@trello.com

# All in one - Microsoft Office 365

Microsoft Teams

Microsoft Planner

Microsoft Whiteboard

@microsoft.com

# Smart Boards

@abluecup, neyro2008 & stterryk @123rf.com

- Saxonia Systems
  - In-house developed solution
- ETE0 = “One Team One Office“

@Saxonia Systems

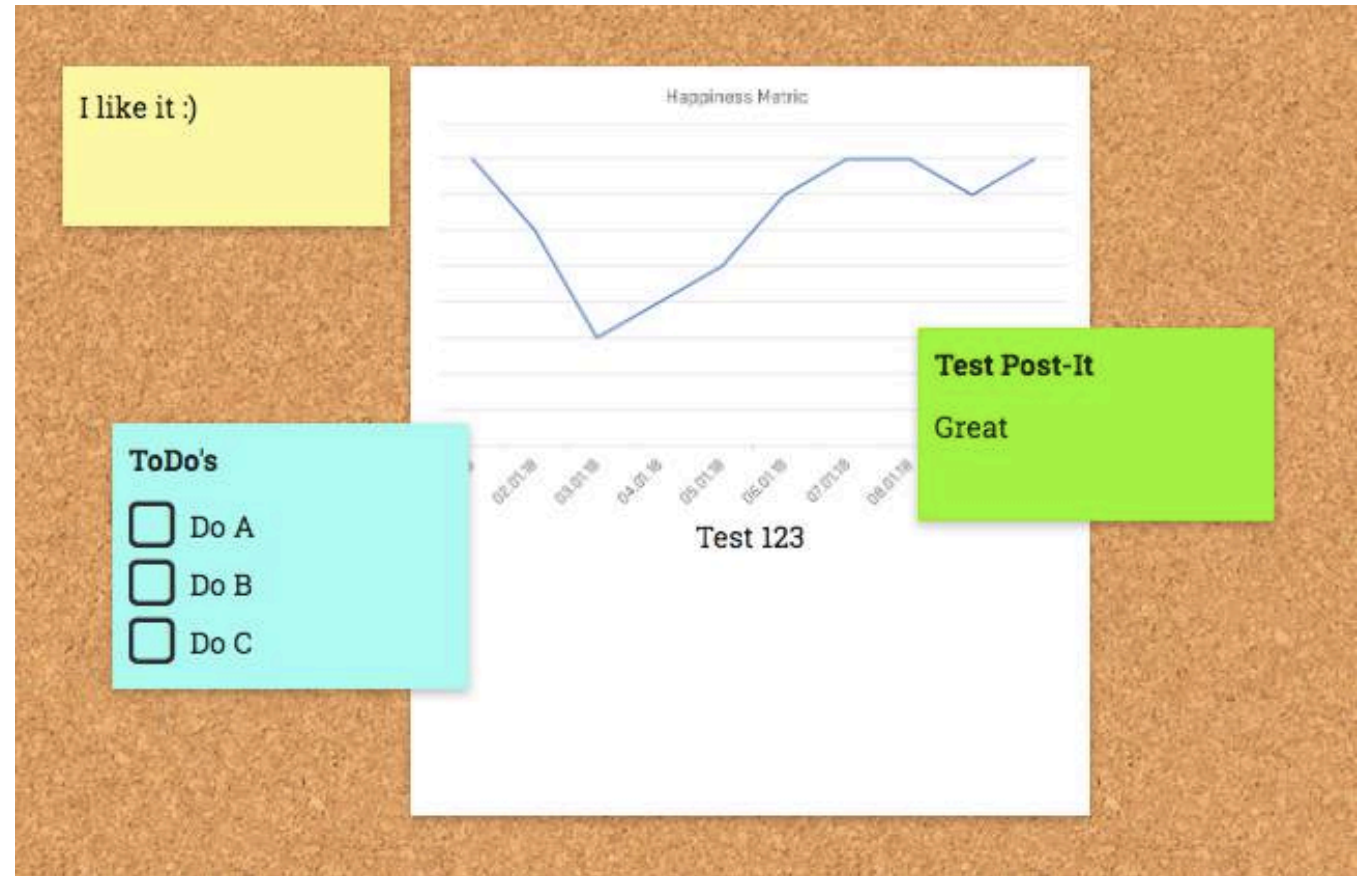

@aquir @123rf.com

# Remote collaboration

- Online corkboards/  
whiteboards
  - [pinup.com](http://pinup.com)
  - [note.ly](http://note.ly)
  - [miro.com](http://miro.com)

**Example:** borisgloger  
remote retrospectives

# Daily Stand-Ups

**i done this**

From video conferencing to asynchronous information flow?

@skvoor @123rf.com

# Continuous video conferencing

- Rather extreme solution but some companies actually really use it!

@skvoor @123rf.com

# Learn from others!

---

- Open Source Software Community
  - Highly distributed community
  - Individuals that contribute not regularly & often outside office hours

**Example** for software development

# GitHub

## Even more tools, tools and tools

---

- <https://www.collaborationsuperpowers.com/tools/>
- <https://www.thecouchmanager.com/the-ultimate-list-of-virtual-team-technology-tools/>

>> Do you know other useful infrastructure/tools that help to boost team productivity?

# Documentation Group 1

## Prozesse und Menschen

- + Soziale Aspekte berücksichtigen
  - Zeit und Raum in Meetings vorsehen
  - periodische Face2Face Meetings
  - zeitgleiche Aktivität auf verbleiben Standorten
- + Kontinuität geben
  - fix periodische Rahmenbedingungen f. Meetings
  - fix Agenda, Tools, Projektregeln
- + Transparenz
  - Einblick in Arbeiten der Teamkollegen (Ergebnisse, Erfolge, ...)
- + zeitliche und kulturelle Aspekte kennen und berücksichtigen

## Tools und Infrastruktur

- + analoges Kanban Board mit Dauervideo-Litung
- + Doppelftes Flip chart
- + zentrales Protokoll (OneNote)
- + Backup Lösungen bereit halten
- + gemeinsamer Projektraum (War-Room)

Regelmäßige persönl. Treffen  
(quartalsweise, gegenseitig)  
→ durchziehen und durchziehen, Ritual

Vermittelt Termine (Zeitbäume, ...)

- homogene Tool(Landschaft)  
  & weniger = mehr
- Bandbreite

Tools

- └ Rainbow (Alcatel)
- └ Intranet
- └ Confluence
- └ X-mind
- └ One Note

## Remote Teams Good Practices

- Einheitliche Bedingungen für ALLE  
-> für Standard-fremde und Lokale
- Kommunikationsregeln etablieren und  
exekutieren
- Projekträume
- räumliche Rotation
- Stimmung abholen, Smalltalk,  
aktuelle lokale Gegebenheiten
- Sozialer Rahmen (Abends)

## INFRASTRUCTURE AND TOOLS

- Unify Circuit

## GOOD PRACTICES

KULTUR TRAINING

SOCIALIZING

REGELMÄßIGE MEETINGSKULTUR

AMBASSADOR

AKTIVE ROLLE FÜR ALLE

ONSITE TERMINE

## Useful infrastructure/tools

SKYPE FOR BUS. / WEBEX

FIREPOKER (estimation)

CITRIX (remote desktop)

WORKPLACE
